**CAMBRIA INTRODUCES ACCENTS BY CAMBRIA AT THE
2008 KITCHEN/BATH INDUSTRY SHOW**

***Leader in Natural Quartz Surfaces Unveils New Line of Accessories that
Complement Countertops***

MINNEAPOLIS/ST. PAUL (April 4, 2008) – Cambria, the only producer of natural quartz surfaces in the United States, will unveil *Accents by Cambria* at the 2008 Kitchen/Bath Industry Show (K/BIS) April 11-13 at McCormick Place in Chicago.

Accents by Cambria is a complete line of accessory items made from Cambria Natural Quartz Surfaces[™]. The new accent line will include cabinet knobs, drawer pulls, switch plates for electrical outlets, phone jacks and light switches, vertical paper towel holders, coasters and cheeseboards. *Accents by Cambria* will be on display at Cambria's K/BIS booth (#1953 in the South Hall).

"We are excited to launch *Accents by Cambria* at the 2008 Kitchen and Bath Industry Show," said Peter Martin, Cambria's Director of Marketing and Core City Sales. "These accessories are yet another way homeowners can complement their Cambria surfaces."

In 2007, Cambria introduced 12 new complementary colors that offer the unique opportunity to incorporate multiple colors on a variety of surfaces, creating more depth and character in a home.

“Accents by Cambria provide designers with a new way to coordinate accessories with countertops and other surfaces,” said Martha Kerr, Certified Master Kitchen and Bath Designer. *“Plus, because Cambria is already a ‘green’ product, it’s an easy way to infuse stylish detail while maintaining eco-friendly design.”*

Accents by Cambria will be available to consumers in 2008.

Also at K/BIS, Cambria spokesperson and former supermodel Cheryl Tiegs will be at the Cambria booth the afternoon of Friday, April 11. Ms. Tiegs will be available for scheduled media interviews and tours of the booth. Please contact Jayme.Brandanger@CambriaUSA.com to schedule interviews with Ms. Tiegs.

As a leader in design innovation, Cambria offers more colors with unique design capabilities than any other surfacing material. Complementary colors from the Desert and Quarry collections offer unique opportunities to incorporate multiple colors on a variety of surfaces. Cambria is available through builders, designers, architects and kitchen/bath retailers throughout all of North America.

Strong, Safe, Certified and Environmentally Friendly

Cambria is a stain-resistant, non-porous surface that is harder, stronger and easier to care for than other stone surfaces including granite and marble because it does not require sealing with harsh chemicals. In addition, Cambria is GREENGUARD Indoor Air Quality® and GREENGUARD For Children & SchoolsSM certified, which means it does not off-gas or emit harmful chemicals into the air. Cambria is also certified by NSF International as safe for use as a food preparation surface – there is no safer surface available to consumers.

Cambria recycles and recovers 100 percent of the water used in its production processes through unique settling and filtering techniques. In addition, the product’s GREENGUARD certifications make projects eligible for one (1) LEED point in any LEED-certified building project in the Indoor Environmental Quality category. LEED (Leadership in Energy and Environmental Design) is an accreditation program conducted by the U.S. Green Building Council that certifies building projects based on performance under the LEED rating system.

Primarily made from North American quartz, and as the only producer of natural quartz surfaces in the United States, Cambria has a lower carbon footprint when compared to other quartz products that are largely produced in the Middle East, Asia and Europe and require greater transportation and carbon resources in route to market.

Cambria is available to consumers, builders, contractors, architects and designers throughout North America and the world. Cambria has operations and fabrication facilities in Minnesota, Illinois, Indiana, North Carolina and Toronto.

About Cambria

Cambria is a privately held, family-owned company with more than 600 employees. Headquartered in Le Sueur, Minn., Cambria is one of the few quartz surface plants in the world and the only producer of natural quartz surfaces in the United States. Cambria has a North American network of stone fabricator and installation partners that share Cambria's commitment to quality and craftsmanship. Cambria focuses on quality, innovation and growth in their respective markets. Cambria is available to consumers via retail partners throughout North America. Cambria also exports its products throughout the world. For additional information about Cambria, or to locate the closest Cambria dealer, call 1-866-CAMBRIA or visit Cambria on the web at www.CambriaUSA.com.
