CAMBRIA ANNOUNCES WINNER OF TRIP TO THE DESIGN CAPITAL OF THE WORLD

Grand Prize Winner Selected As Part of Cambria's "Trip to Milan" Sweepstakes

MINNEAPOLIS (August 21, 2007) Cambria, the exclusive producer of natural quartz surfaces in the United States, announced today that Brian Simpson, owner of Kitchen and Bath Solutions in Phoenix, Arizona is the winner of Cambria's 2007 "Trip To Milan" sweepstakes.

The "Trip to Milan" sweepstakes was held in conjunction with the 2007 Kitchen and Bath Industry Show in Las Vegas, Nevada. Registered attendees entered the contest by completing an entry form on Cambria's website. Simpson was randomly chosen as the grand prize winner and will receive roundtrip airfare and hotel accommodations for seven nights for himself and a guest.

As a leader in design innovation, Cambria offers more colors with unique design capabilities than any other surfacing material. Milan, Italy is one of the world's most beloved locations for design inspiration, making it a natural fit for Cambria's grand prize destination. Cambria Natural Quartz Surfaces are used for residential and commercial applications including countertops, shower and tub surrounds, vanities and flooring.

“I am very excited to travel to Milan,” Simpson said. “This is a once in a lifetime opportunity and I can’t wait to experience everything the city has to offer.”

Simpson is the owner of Kitchen and Bath Solutions, an independent kitchen and bath dealer that specializes in interior design products including cabinets, shower surrounds and doors, and countertops.

Beyond adding to Cambria’s popular color palette, the 12 new colors unveiled at the 2007 Kitchen & Bath Show complement one another, offering unique opportunities to incorporate multiple colors on a variety of surfaces, creating more depth and character in a home.

Cambria is a stain-resistant, non-porous surface that is harder, stronger and easier to care for than granite, limestone and marble because it does not require sealing. Cambria is also certified by NSF International as a safe surface for food preparation. In addition, Cambria is GREENGUARD Indoor Air Quality® and GREENGUARD For Children & SchoolsSM certified as the lowest-emitting type of building material – there is no safer surface available to consumers.

Cambria is available to consumers, builders, contractors, architects and designers throughout North America and the world. Cambria has operations and fabrication facilities in Minnesota, Illinois, Indiana, North Carolina and Toronto.

About Cambria

Cambria is a privately held, family-owned company with more than 500 employees. Headquartered in Le Sueur, Minn., Cambria is one of the few quartz surface plants in the world and the only producer of natural quartz surfaces in the United States. Cambria has a North American network of stone fabricator and installation partners that share Cambria’s commitment to quality and craftsmanship. Cambria focuses on quality, innovation and growth in their respective markets. Cambria is available to consumers via retail partners throughout North America. Cambria also exports its products throughout the world. For additional information about Cambria, or to locate the closest Cambria dealer, call 1-866-CAMBRIA or visit Cambria on the web at www.CambriaUSA.com.
