

CAMBRIA DESIGN CARDS

BENEFITS OF DESIGN CARDS

- Larger format than 3"x3" physical samples (almost 4x larger)
- Consistent image of each design
- Full slab and built-in imagery on back
- QR code on the back to purchase a physical sample via HomeDepot.com, if desired

HOW TO USE DESIGN CARDS

- Cambria has purposely created these new Design Cards to represent our products in a customer's home.
- The Home Depot store environment is a warehouse setting featuring unique lighting not found in residential homes.
- Inside a Home Depot store, the Design Cards will have a slightly darker and yellower tint due to the lighting used. This variance is intentional.
- If needed, use a physical sample of a design and the corresponding Design Card and walk the customer to either the entrance or exit of the store where the samples can be viewed in more optimal lighting. The customer will notice a significantly positive change. A similar effect will take place in the customer's home.

ORDERING DESIGN CARDS

- Step 1: Visit the Material Bank website portal
- Step 2: Place order for Cambria Design Cards
 - NOTE: Quantity of one (1) = One pack of five (5) design cards
- Step 3: Ensure sample arrival and stock in designated drawer
